

In The Name of Allah, The Most Compassionate, The Most Merciful

The world and free-hearted countries especially Muslims, consider the brutal attacks of the Zionist Regime against the children, pregnant women, mothers and defenseless elders a clear violation of international laws. Israel must abide by all statements approved by the United Nations Security Council and the amendments to the 4 Hague conventions for years 1907 and the fourth 1949 convention of Geneva related to the support of civilian population at the time of war in accordance to what is happening in occupied Palestine, Beitul Moghaddas, the West Bank and Gaza.

In the case that Israel is not committed to international laws, the world must be more sensitive to the crimes of this regime and to use sanctions and force. It is the responsibility of the Muslims of the world to help the people of Palestine and to defend human values and prevent this occupying regime from continuing its atrocities.

We as women academicians announce our support and sympathy especially for the women and children and we ask for the complete withdrawal of the siege on Gaza so that food and medical supplies could reach this region and we support the strong resistance of Palestinian forces.
